

**Janet S. Twyman**, Ph.D., BCBA, NYSLBA, is a noted proponent of effective instruction and using technology to produce individual and system change. A career educator, she has been a preschool and elementary school teacher, a principal and administrator, and university professor. A sought after speaker nationally and internationally, Dr. Twyman has presented on leveraging new technologies for diverse learners and settings at the United Nations. She has served on the boards of numerous organizations including the Cambridge Center for Behavioral Studies (chairing the Education Group) and PEER International (assisting township schools in Port Elizabeth, South Africa). In 2007-08 she served as President of the Association for Behavior Analysis International and in 2014 was named an ABAI Fellow. Formerly the Vice President of Instructional Development, Research, & Implementation at Headsprout, and V.P. of Learning Sciences and Technologies at ABA Technologies, she currently serves as the Director of Innovation & Technology for the U.S. Dept. of Education funded Center on Innovations in Learning. She also holds faculty appointments as an Associate Professor of Pediatrics at the University of Massachusetts Medical School and a Full Professor of Behavior Analysis at the Florida Institute of Technology. She has published and presented widely on instructional design, evidence-based innovations in education, and systems that produce meaningful differences in learners' lives. In 2015 she received the Wing Award for her work in Evidence-based Education and in 2017 received the American Psychological Association Division 25 Fred S. Keller Behavioral Education Award for her distinguished contributions to educational research and practice.
